Enhancing life with light

Our investment in research and design places us at the heart of the LED revolution. We're powering the transition from traditional bulbs to luminaires, new solutions and applications – and showing people ways to enjoy light in a whole new way.

We use light to help families make every area of their living space do more – in ways that save energy and safeguard the environment. Our lighting choices give people countless ways to express their own style, and create their own solutions with different ways to control light and use contemporary effects, colors and shades. We also want every one of our customers to have the information and confidence they need to find the right product every time.

Because, for us, the perfect light and atmosphere is what turns a good home into a beautiful one.

To put it simply, we enhance life with light.

AT PHILIPS CONSUMER LIGHTING, WE'RE LEADING THE WAY WITH INNOVATIVE LIGHTING SOLUTIONS THAT INSPIRE PEOPLE TO CREATE THE PERFECT ATMOSPHERE AROUND THE HOME.

PHILIPS

DECORATE
YOUR HOME
WITH LIGHT

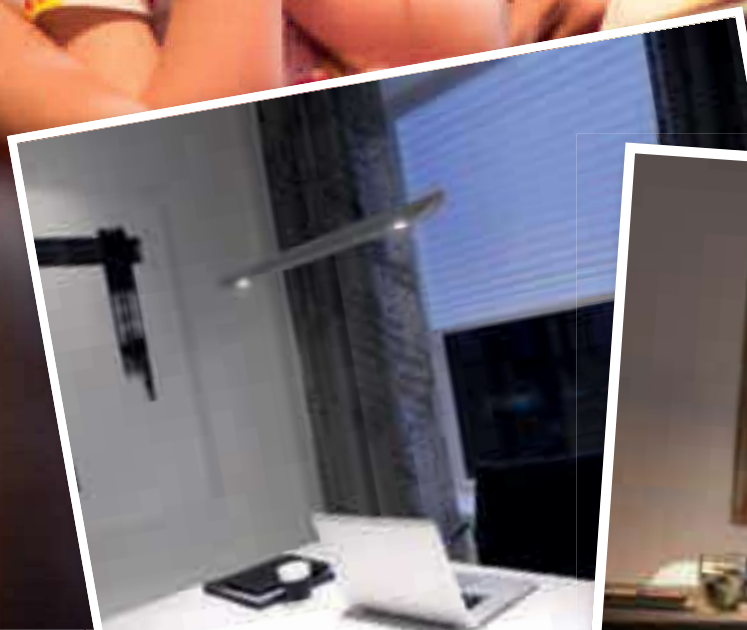

You've created your own home, and furnished it lovingly to make it your own. But no home is complete until the lights come on and bathe your world in a warm and welcoming glow. That's why Philips now offers the myLiving collection – a range of decorative luminaires designed for every type of living space.

These new ideas from Philips do more than light up your living space. They bring every area of the home to life, helping you to work, entertain, relax or rest – and they make a stylish statement about who you are. From stunning looks to ease of use, Philips lighting is all about you.

To simplify things, we have classified our collections around the home decor spectrum - Modern, Contemporary and Heritage for your convenience.

It's amazing what Philips
LED lighting can do for you

PHILIPS

Powerful, warm and energy saving, Philips LED is a lighting revolution for your home

Today's LED technology is ready to take centre stage in your home as the main source of light. Powerful, warm and even, LED light is beautiful to view and a wonder to experience. It's innovative too – many Philips LEDs have special optics that allow you to create stunning new light effects. Whether you want to define a wall or feature with a directional beam of light, or illuminate a room evenly, Philips LED lighting lets you do it all.

With LED, variety means there's always a light effect or luminaire design to get the most out of your home. LED technology allows groundbreaking designs of inspiring purity and beauty, and Philips offers the widest range available. LED provides incredible energy efficiency too, all without sacrificing light quality, power output or choice. No doubt about it – there's a bright future for LED technology, and Philips is leading the revolution bringing it to your home.

PHILIPS

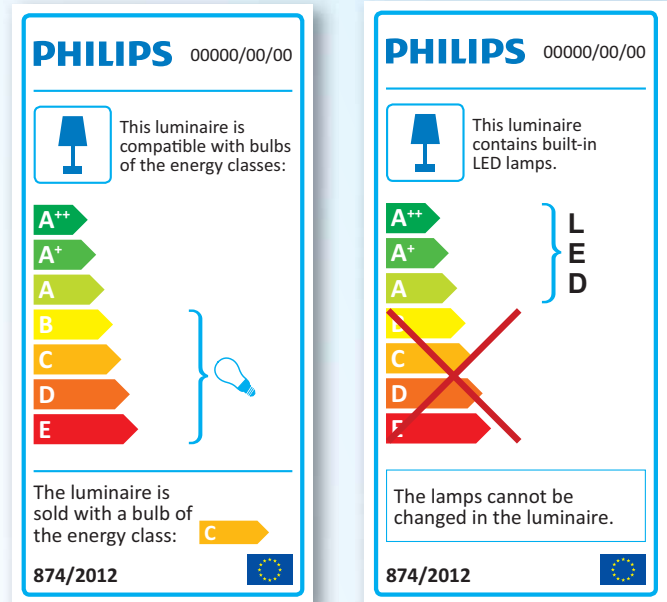

EU policy on Energy Label for lamps and luminaires

EU 874/2012

What is it?

With regulation (EU) no. 874/2012 regarding energy labelling of electrical lamps and luminaires it is required that our consumers - the end users, are informed about the energy efficiency of our products. The EEL conformity will be in place from 01.09.2013 (for Lamps) and 01.03.2014 (for Luminaires).

Our approach:

How we translate this in this catalogue

example 1

3. **Palisander 40903/11/16**
 H 1500 L 326 D 302
 G4 - 6x 20W incl. - 6x 255 lm
 Class I - IP20
 glass

The luminaire is sold with a bulb of the energy class mentioned

This luminaire is also compatible with bulbs for the range of energy classes mentioned (in this example B-C-D-E)

example 2

1. **Vaga 40970/48/16**
 H 48 L 374 D 362
 LED - 6x 2,5W incl. - 1100 lm
 Class I - IP20
 metal

This luminaire contains built-in LED lamps.
 The lamps cannot be changed in the luminaire.

The living room is the heart of any home – a place where families gather and relax and guests socialise. Lighting need for this area has to be flexible and easy to adjust to its different uses throughout the day. Careful placement of different light sources and playing with light layering helps create the feeling of space and to give the room a warm and welcoming feel.

Living room

Enjoying your home is about feeling in control and creating a soothing atmosphere in which you unwind and be yourself. Philips myLiving Modern is designed to help you do just that. Every piece expresses functionality, clean lines and purity. Meanwhile, the careful application of exquisite finishes like gloss and chrome provides unmistakable flair and style to complement your home. Even the colours are simple and bold, while carefully chosen materials bring depth and rich texture. The pièce de résistance is a uniform light of the highest quality that bathes your whole room. Truly a new dimension of home lighting to catch the eye.

myLiving Modern

Decorate your home with light

Concept benefits

Superior light quality with Philips lamps included

Dimmable to create ambiance at home (on selected articles)

Warm white light – based on various light technologies

“The lighting scheme in the living room should cater to different needs during the day. General lighting allows for everyday tasks like cleaning, or simply lounging around. Task lighting helps with reading or task orientated activities. Accent lighting such as spots light bring a cosy atmosphere into play while entertaining.”

Current, understated yet distinctly stylish, Philips myLiving Contemporary collection spans from floor, table, wall and ceiling lights. Designed around the latest tastes, trends and lifestyles, they blend effortlessly into your décor and bring out the best in your home.

Whether it's a cosy corner to curl up with a book or an open area to entertain friends and family, you can now set the theme for any area of your home using hue and textures to define that localised ambience that you have always desired.

Warm white light –
based on various light
technologies

“Recessed spots can be set within a niche in a wall to provide strong, reflective rays of light to illuminate every part of the display object in the niche. A single, wider and dispersed beam of light will reflect well off each surface of the niche.”

Philips myLiving Heritage exudes timeless class and crafted elegance. With their subdued and modest forms, myLiving Heritage are particularly suited for those that seek harmony in timeless interiors. The lamps are sturdy and well-made, with crafted fabrics, metals and glass that enhance the feeling of

quality. To help diffuse the light and create a softer ambience, they also have textured finishes, carvings and other embellishments; while a tasteful color palette of natural hues helps complete the effect. A perfect way to create that cozy and homely feel, with a timeless look.

152

There's no denying it – we love our children and we only want the best for them. We will do anything to ensure that their well-being is taken care of. To do this, we start by providing our child a friendly sanctuary within the house – their own bedroom. This sanctuary will be a source of comfort, an area of inspiration and a place that they call their own.

Kids room

Philips myKidsRoom is a range of lamps designed for kids. Available in a variety of colourful and exciting designs, they help create a world that encourages children to do what they enjoy most – have fun and be creative. All of the lamps have a diffused warm white light that is comforting and cosy – not to mention ideal for magical bedtime stories.

Explore the collection and see how light can make a big difference for your little people.

myKidsRoom

A fun world of colour and creativity for kids

What's new?

Concept benefits

Superior light quality with Philips lamps included

Warm white light

Energy saving

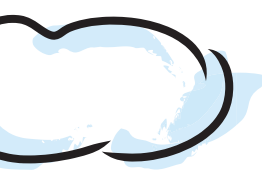

Designed for kids

"Help children learn about day and night in a fun way by using lamps that use playful symbols to let them know when its time to sleep and time to get up."

Imaginative Lighting

PHILIPS | **Disney**

170

A unique partnership

As a parent you know how active and amazing a child's imagination can be and their bedrooms are a portal to it.

By combining the experience and innovation of Philips with the fantastic magical world of Disney and its rich storytelling content, Imaginative Lighting has the power to transform bedrooms into worlds of wonder. It can spark imagination, make key moments more special and routines more fun. It can make story time more enchanting and absorbing. It can help your children feel safer at night, sleep better and wake brighter.

Together we can inspire amazing memories, with exciting, dynamic and interactive lighting that your whole family can trust and enjoy.

There is a Philips and Disney lighting solution for every moment of your and your child's day.

PHILIPS

204

The bathroom is the place we begin and end our day. We start our morning task-oriented activities like brushing our teeth, shaving, styling our hair and ensuring that our make-up is done to perfection. In the evening, the bathroom transforms into a place of comfort as we wind down and soak in a hot bath, before retiring to bed. It's an oasis of serenity in each household, and doing it up well will only ensure that you have an extremely enjoyable start and end to your day.

Bathroom

MyBathroom's high-quality light sources provide the right kind of light for every bathroom need, supporting your daily grooming activities and giving you complete confidence in the results. There's a wide choice of wall and ceiling luminaires. The collection offers large ceiling fixtures that light your whole bathroom in a comfortable and pleasant way. In addition, there are wall lights that provide bright, shadow-free light for precision tasks at the mirror, such as shaving, applying make-up and putting in contact lenses.

*my***Bathroom**

Freshen up with beautiful natural light

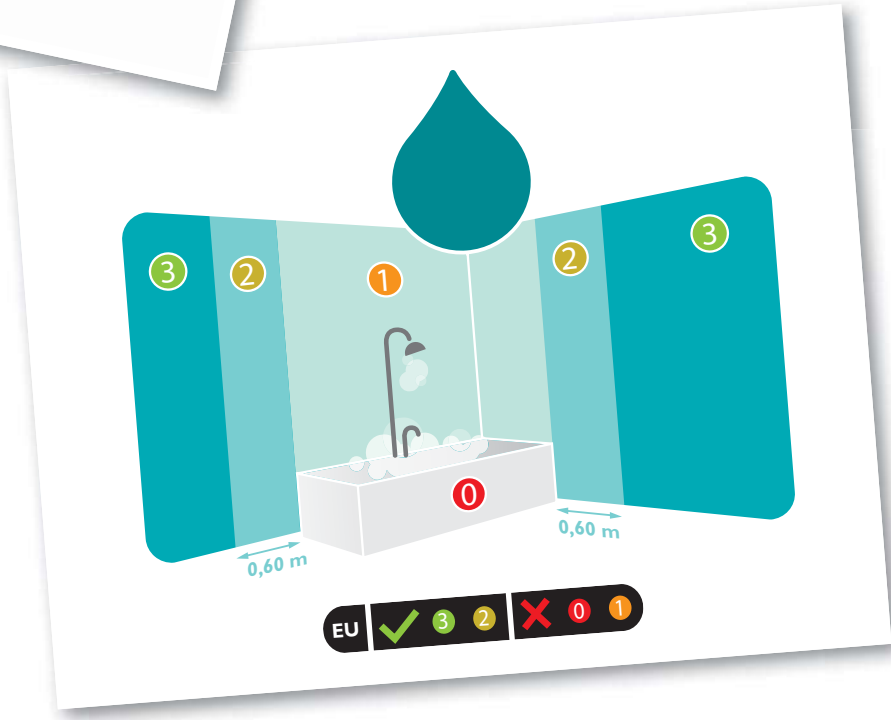

Sealed tight to keep out moisture for a completely safe and well-lit bathroom

Sealed extra tight to a rating of IP44* or IP65* and certified water resistant, each myBathroom luminaire is suited perfectly for humid environments – even near a shower; sink or bath. The fully-sealed premium body is sleek and smooth, which looks great too.

* The IP rate identifies the Ingress Protection against humidity and dust. The IP level is described by two figures: the first one refers to the protection level against dust, the second against water.

Concept benefits

True skin color with high quality light

Superior light quality with Philips lamp included

Perfectly suitable humid environments

Energy saving

“For perfect lighting on the face, light a mirror from the top and side, using overhead and side lights. This eliminates shadow and creates a focal point at the mirror’s centre from the converging light beams.”

PHILIPS

226

Nothing says you're home more than the kitchen – a place where we nourish our bodies and soul as we cook, eat or simply spend time with our loved ones preparing food together. Good lighting can help make your kitchen welcoming, and feels cheerful and energising. It also presents your food in their true colours while at the same time provides the necessary brightness for safety while preparing your food - the very perfection that a cook demands.

Kitchen

A man with dark hair and a beard, wearing a light blue polo shirt, is focused on grating a block of cheese on a metal grater. He is standing in a kitchen with white cabinets and a stainless steel range hood. On the counter in front of him, there is a glass dish containing a red sauce topped with the freshly grated cheese. To the right, there is a bottle of yellow oil and a small potted herb plant. The lighting is bright and even, highlighting the man's concentration and the textures of the food.

Whether you're a cordon bleu chef or a master of quick meals, Philips myKitchen will help you to get the most from cooking. Using LED and energy saving lights, it keeps kitchens bright and shadow-free. It's a pleasure to cook by, and creates a safe environment for tasks like mixing and handling sharp knives. The true-colour light makes your ingredients and meals look as fresh and delicious as they taste.

Easy to install and clean, and built to last, Philips myKitchen is also a practical lighting system. From discrete modular systems to under-cabinet spots and battens, there's a wide range to choose from. Whatever your kitchen looks like, you'll find Philips myKitchen has the recipe for perfect lighting.

MYKITCHEN

Make light your essential ingredient

What's new?

Concept benefits

Maximum precision with powerful warm white light

Connectable systems

Accurate colour with high quality light

Energy saving

"To eliminate shadows, place recessed spots on the top of your cabinets so they bounce off the ceiling and walls."

PHILIPS

236

Functional lighting ensures all areas of your home are well lit and safe, as well as pleasant to experience. Philips Functional Lighting is designed to blend in with your home décor and brighten up your living, storage and in-between spaces. It casts a clear, warm glow throughout your home.

Functional Lighting

Philips SmartSpot is a range of superb minimalist recessed spotlights designed to blend with your interior decor. It lets you be bold in the way you use spotlighting in your home. Distinctive without being overstated, each spotlight is designed to complement its surroundings. Install spotlights in walls, ceilings or features such as bookcases or cabinets while still maintaining the look you want. Best of all, this range of powerful luminaires uses the very latest energy-efficient halogen, energy saver and LED light sources. Beautifully brilliant yet wonderfully warm, the light is every bit as appealing and cosy as that of conventional bulbs. Energy saving too, it ensures a warm glow inside to match the warm glow of light.

A man in a purple shirt and a woman in a green shirt are standing in a modern kitchen. The kitchen features dark wood-paneled walls and ceiling. Several recessed spotlights are visible in the ceiling, providing ambient lighting. The woman is holding a glass of wine, and the man is also holding a glass. In the foreground, there is a dining table with white plates, a glass of water, and a white chair.

SMARTSPOT

Accent your home with light

What's new?

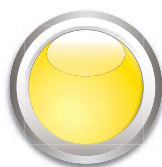

Concept benefits

Accent lighting, perfect for emphasising special features in the room

Superior light quality with Philips lamp included

Warm white light based on various light technologies

Energy saving

"For a dramatic effect on your objet d'art, use a pair of directional spots over it. At the correct distance from the wall, these spots cast a flattering wash of light over it and add drama to your display."

Sometimes it's all about capturing the moment. Philips offers lighting solutions to match your mood and help you create great moments. Choose from a variety of ways to set the right atmosphere by using light & colour in your home. LivingColors, Candles & LightStrips are everything you need to set the perfect scene. Elegant designs combined with LED based technology make you enjoy lighting that really fits your mood. How will you colour your world with light?

MoodLighting

LivingColors

Color your world with light

Concept benefits

Vary your ambience with coloured light

Let the colours blend naturally into your interior

Just the right amount of light impact

“Imagine creating a bright sunshine yellow to warm your soul, or romance in shades of red – all in the comfort of your own home. Choose a colour and take your living space to a whole new level. Make dinner parties feel extra glamorous, get ready for a night out, or simply unwind after a hard day’s work. From vibrant electric blue to pale leaf green, LivingColors’ advanced LED technology lets you select from a spectrum of 16 million colours that reflect every kind of mood.”

LivingColors Iris. A timeless and distinctive design to complement your home interior. Just take the remote control, select one of the 16 million colours and enjoy.

1. **Iris Black 70999/30/PH**

Candlelight effect

Elegant and timeless design

No open flame,
hot wax or smoke

Stylish, flame-free and rechargeable, Philips CandleLights and TeaLights use LED technology to add warmth and elegance to any situation safely and easily. Designed to create the perfect backdrop, you can use these lights to enjoy a romantic meal for two, celebrate with friends, take it easy alone, or give a new look to a familiar space. Natural in light and appearance, CandleLights and TeaLights look just like a real candle. Except, of course, you'll never need to worry about finding the matches again.

Ecomoods is the breakthrough energy saving concept that implies you don't have to compromise on design or light quality while caring about the environment. Ecomoods Outdoor gives your garden or terrace the same stylish contemporary design, natural warm light and energy efficiency with a saving of up to 80% off your energy bill. Whether for a meal or drinks with friends and family, games with the kids or relaxing with a good book or a spot of gardening, a garden or terrace is an extra living space the whole family can enjoy. Now you can keep on enjoying your outside space long after the sun goes down with Ecomoods Outdoor.

A photograph of a woman and a young child smiling together in a garden. The woman is wearing a red top and the child is wearing a green patterned dress. A large green leaf is in the foreground on the left. The background is a soft-focus garden scene.

Powerful warm light

Energy saving

"A lighting scheme is a good tool to define where you need light in your garden. Think of functional spaces, such as a terrace, a driveway or your front door. Also consider special corners or architectural features to create a beautiful scenery."

When the sun goes down on your outdoor space, there's no better feeling than switching on your garden lighting. Now Philips myGarden Solar lets you capture the power of the sun during the day to enjoy beautiful, atmospheric garden lighting long into the night. Powered entirely by solar, it's the most energy efficient source of outdoor lighting there is.

myGarden Solar

Turn sunlight into LED light

Concept benefits

Warm white light,
instantly on

Multiple applications to
match your needs

No 220-240V
cables needed

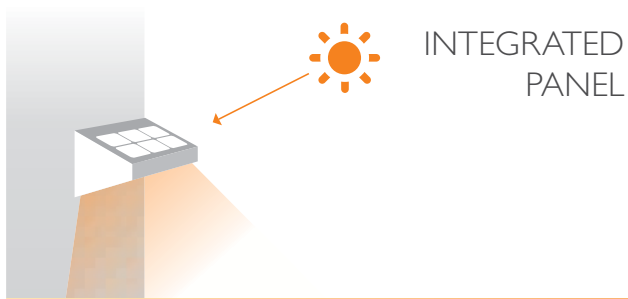

Solar energy

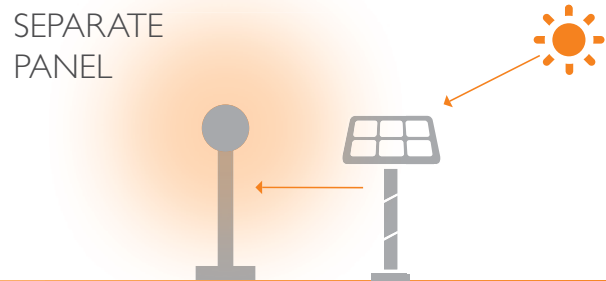

"With no mains power cables required, solar is safe and easy to install, which makes it ideal for areas that are hard to reach or don't have electricity – at the bottom of the garden, for instance, or on top of a structure."

myGarden Solar

Philips myGarden Solar lights are powered by a solar lighting system. Each has a solar panel that collects and stores energy from sunlight during the day. It then uses this energy to power its light long into the night.

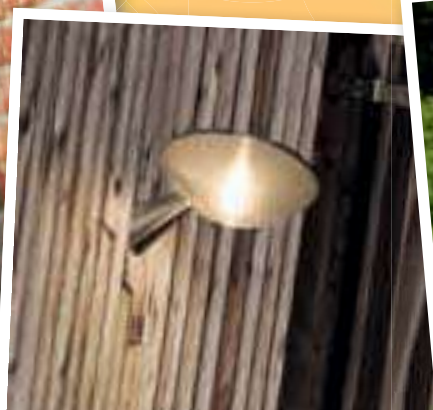

Some Philips myGarden Solar lights have an integrated solar panel as part of the light. These are **free of cables**, but you do need to place the light in a place where it receives enough sunlight during the day. myGarden Solar lights with an integrated panel emit **up to 100 lumens** of light, enough to illuminate a defined area or highlight a feature.

Some Philips myGarden Solar lights have a **separate solar panel** connected to the light by an included cable. You can position this panel in the best place to collect sunlight, or keep it out of view on a roof or around a corner. Separate solar panels provide more light output – **up to 300 lumens** – so you can also link up to three myGarden Solar lights to one separate solar panel.

Thanks to advanced LED lighting and solar technology, myGarden Solar lights create plenty of warm white light. This is pleasant to experience and illuminates outdoor areas well, making Philips myGarden Solar the perfect backdrop for enjoying time outdoors with family, creating dramatic light effects to wow your friends, highlighting garden features, or simply lighting paths and garages safely.

Philips myGarden Solar takes the hard work and hassle out of outdoor installation, requiring just a few simple minutes to place in your garden – even if you've never installed outdoor lighting before. With no mains power cables to worry about, there is lots of flexibility for placement, since you don't need to be close to a power socket.

Philips myGarden Solar lights are designed to make the most of the energy they receive from the sun, for light that lasts longer. Energy-saving features such as an on/off switch and a motion sensor let you control the amount of light you use, so you can be sure there's always light available when you need it. Since with solar the length of lighting time depends on the amount of sunlight the solar panel receives, these clever energy-saving features help to ensure that whatever the weather or time of year, you'll always be able to light your outdoor areas brightly with myGarden Solar.

Outdoor lighting can improve the look of your garden or outside space, illuminating eye-catching features, lighting pathways with style or creating the perfect ambience for those memorable evenings with friends and family. That's why Philips has created myGarden, a range of beautiful decorative outdoor luminaires with the flair and functionality to help you make the most of your outdoor space in your own style.

Philips myGarden offers a wide range of outdoor lamps. All products are high quality, constructed from hard-wearing materials like aluminium and toughened synthetics and finished to perfection. When the sun goes down, the high-quality energy-saving light from Philips will help you enjoy your outdoors too.

myGarden

Enjoy a beautiful garden with light

Concept benefits

High quality light with Philips lamps included

Multiple applications to match your needs

Resistant high quality material, built to last

Energy saving

"Different lamps give different qualities of light. EcoHalogen sparkles and invigorates, EcoClassic warms and comforts, while LED light brings out the vivid colors in your garden. All Philips Energy Saving lamps give a warm diffuse light that's even and pleasant."

Philips sensor lights give you a warm welcome every time you come home, and helps to keep you safe at night with the comfort of well-lit walkways, driveways and front areas. They are equipped with infrared motion sensors. These detect movement and switch the light on automatically when you or anyone else visits your home (and switch off again afterwards).

A man and a woman are embracing on a porch at night. The man is wearing a blue blazer and olive green trousers, and the woman is wearing a red top and blue pants. They are standing on a paved walkway next to a wooden house. The scene is illuminated by warm, soft light, likely from the sensor lights mentioned in the text. There are green plants and a window with blinds in the background.

Sensor *lights*

Always light when you come home

Concept benefits

High quality light with Philips lamps included

Easy motion sensor set-up

Smart motion sensor for automatic light switch

Energy saving

"Mount a standalone sensor on one of the corners of your house to detect movement in the widest possible angle and to switch on several light points at the same time."

A photograph of a modern outdoor terrace at night. A woman is sitting on a lounge chair in the foreground, looking towards the camera. The terrace is illuminated by recessed ceiling lights. In the background, a glass-walled building is visible, with people sitting at tables inside. The scene is reflected in a pool of water in the foreground.

The secret of good garden lighting is to combine lamps to highlight features and ensure good general lighting. Philips orientation lights is a wide range of high-quality outdoor luminaires designed to bring out the best in gardens and terraces at night. The recessed spots, projectors, and spot lights direct the correct amount of light exactly where it is needed, and blend in with outside scenery. That means you can add a little magic and sparkle to your garden, creating paths of light along the ground or illuminating building architecture. Your outdoor scenery will look every bit as good at night as it does during the day.

Orientation lights

Illuminate your garden at night

Concept benefits

High quality light with Philips lamps included

Up to IP67, suitable for use on path and driveways

Accent lighting, to create your preferred light scenery

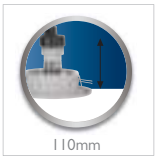

Energy saving

"Some lights are water resistant up to IP67, making them suitable for the hardest applications, such as placement in the driveway or amongst garden foliage."

CEE (ENG)

Light sources

Explanation of symbols

G4		 On/off switch
G9		 Two switches included
GU10		 Dimmer on article
GU10		 Touch dimmer included
E14		 Compatible with wall dimmer
E14		 Motion sensor
E14		 Day and night sensor
E14		 Integrated switch box
E27		 Remote control included
E27		 Directional light
E27		 Bi-Directional light
GX53		 Adjustable height
G53		 Adjustable light source
2GX13		 Rotates freely
G5		 Suitable for horizontal and vertical mounting
T5		 Suitable for wall and ceiling installation
2G11		 No wire needed
2G7		 Batteries included
G23		 Energy class of the bulb (in this example A ⁺)
G24Q1		 Bulb compatible with range of energy classes... (in this example A ⁺ -A-B-C-D-E)
